

Online Readers & Devices

Copiers, Laundry, Vending & Add-Value Stations

The NuVision Networks (NVN) collection of unattended readers offer the ultimate in cardholder convenience and satisfaction by providing self-service access to the most commonly used services on campus. Institutions using any or all of NVN's readers and devices are able to streamline cash flow, increase volume and revenue, and reduce or eliminate vandalism. Plus, with our exclusive AES 256-bit encryption with Packet-Lok, cardholders can trust their transactions are safe and secure.

Cardholders will benefit from lightning-fast, real-time transaction performance. Administrators will benefit from significant savings on operator costs and dramatic increases in revenue. Everyone on campus will benefit from the unparalleled NVN customized service.

COPIER - MICROFICHE READER

Model 7010-HS Online Terminal w/ Magnetic Stripe Reader

NVN's solution for copier and microfilm/fiche machines is our 7010HS card reader. Constructed from heavy gauge metal this device interfaces with virtually all copier and microfiche machines via a specialized interface cable.

FEATURES & BENEFITS

- Convenient for user, no more chasing coinage
- Online real-time transaction and activity log reporting capabilities
- Magnetic stripe card reader
- Displays cardholder's account balance and current transaction details
- Ability to charge or track copying by patron, client code, and/or group
- Ability to set up 4 different copy prices

- Optional Smart Card and Bar Code available

PHYSICAL DIMENSIONS

- Height 2"
- Width 4.5"
- Length 8.75"
- Weight 4 lbs

LAUNDRY

Model 7030-HS Laundry Room Controller

The 7030-HS Laundry Room Controller reduces coin usage and vandalism by securely controlling, tracking, and charging for laundry services. Detailed transaction information is interfaced back to the patron's online account in real-time.

FEATURES & BENEFITS

- Convenient for user, no more chasing coinage
- Online real-time transaction and activity log reporting capabilities
- Operates up to 32 laundry machines
- 4-line LED display
- Configurable per machine pricing
- AES 256-bit encryption with Packet-Lok

NOTE: Each laundry machine also requires a Model 4030 Laundry Interface

PHYSICAL DIMENSIONS

- Height 7"
- Width 15"
- Depth 8"
- Weight 22 lbs

VENDING

Model 7020-HS Online Vending Machine Reader

Control, charge, and track vending transactions using the feature-rich and durable 7020-HS Vending Reader. Constructed to endure high-traffic locations, the vending reader installs easily into most vending machines. The 7020-HS can be used in conjunction with coin and bills, or it can eliminate the need for coin and bill transactions, thus reducing cash shrinkage.

FEATURES & BENEFITS

- Immediate increase in revenue - up to 47% in some cases
- Most times vending contractor will bear the purchasing costs
- Backlit LCD screen
- Online real-time transaction and activity log reporting capabilities
- Debits the patrons online account in the institution's database
- Uses magnetic stripe card to conduct transactions
- Supports IMDB Protocol and optional NAMA
- 2-line LED display
- AES 256-bit encryption with Packet-Lok
